

GET YOUTH **GLOBAL EDUCATIONAL TRANSFORMATION**
Get United to Raise Nation

VISION

Our vision is to make a competitive nation by providing education and opportunities to Youth, most importantly to special kids and girls that they will be able to stand tall among others and contribute to society in healthy manner.

MISSION

Our mission is to build a healthy environment for children's through provision of equal learning opportunities by eliminating gender discrimination, which will help them in polishing their skills and they will be able to contribute in nations growth.

**COME AND JOIN HANDS
FOR THIS CAUSE**

LEADERSHIP

Nazir Khan is the president of GET YOUTH who is an experienced philanthropist working in South Asia especially in Pakistan by focusing on basic education in the belief that education is a critical requisite for socio-economic change. Our leadership is determined to be extraordinary in their everyday work and is passionate about helping others as we believe you cannot change the world but you can make a big difference by helping less fortunate souls.

OBJECTIVES OF GET YOUTH

- ★ To provide skill based education for every kid over the nation
- ★ To provide quality education to under privileged children without any gender discrimination
- ★ Especially to work for girls education to raise them tall among nation
- ★ To join hands with communities engaged in the similar activities
- ★ To support special kids by making them competitive among others

WORKING DOMAINS OF GET YOUTH

- ★ Technical/ Skilled Based Education
- ★ Girls Education
- ★ Slum Schools
- ★ Special Education
- ★ Help & Support
- ★ Special Kids

No Gender Discrimination

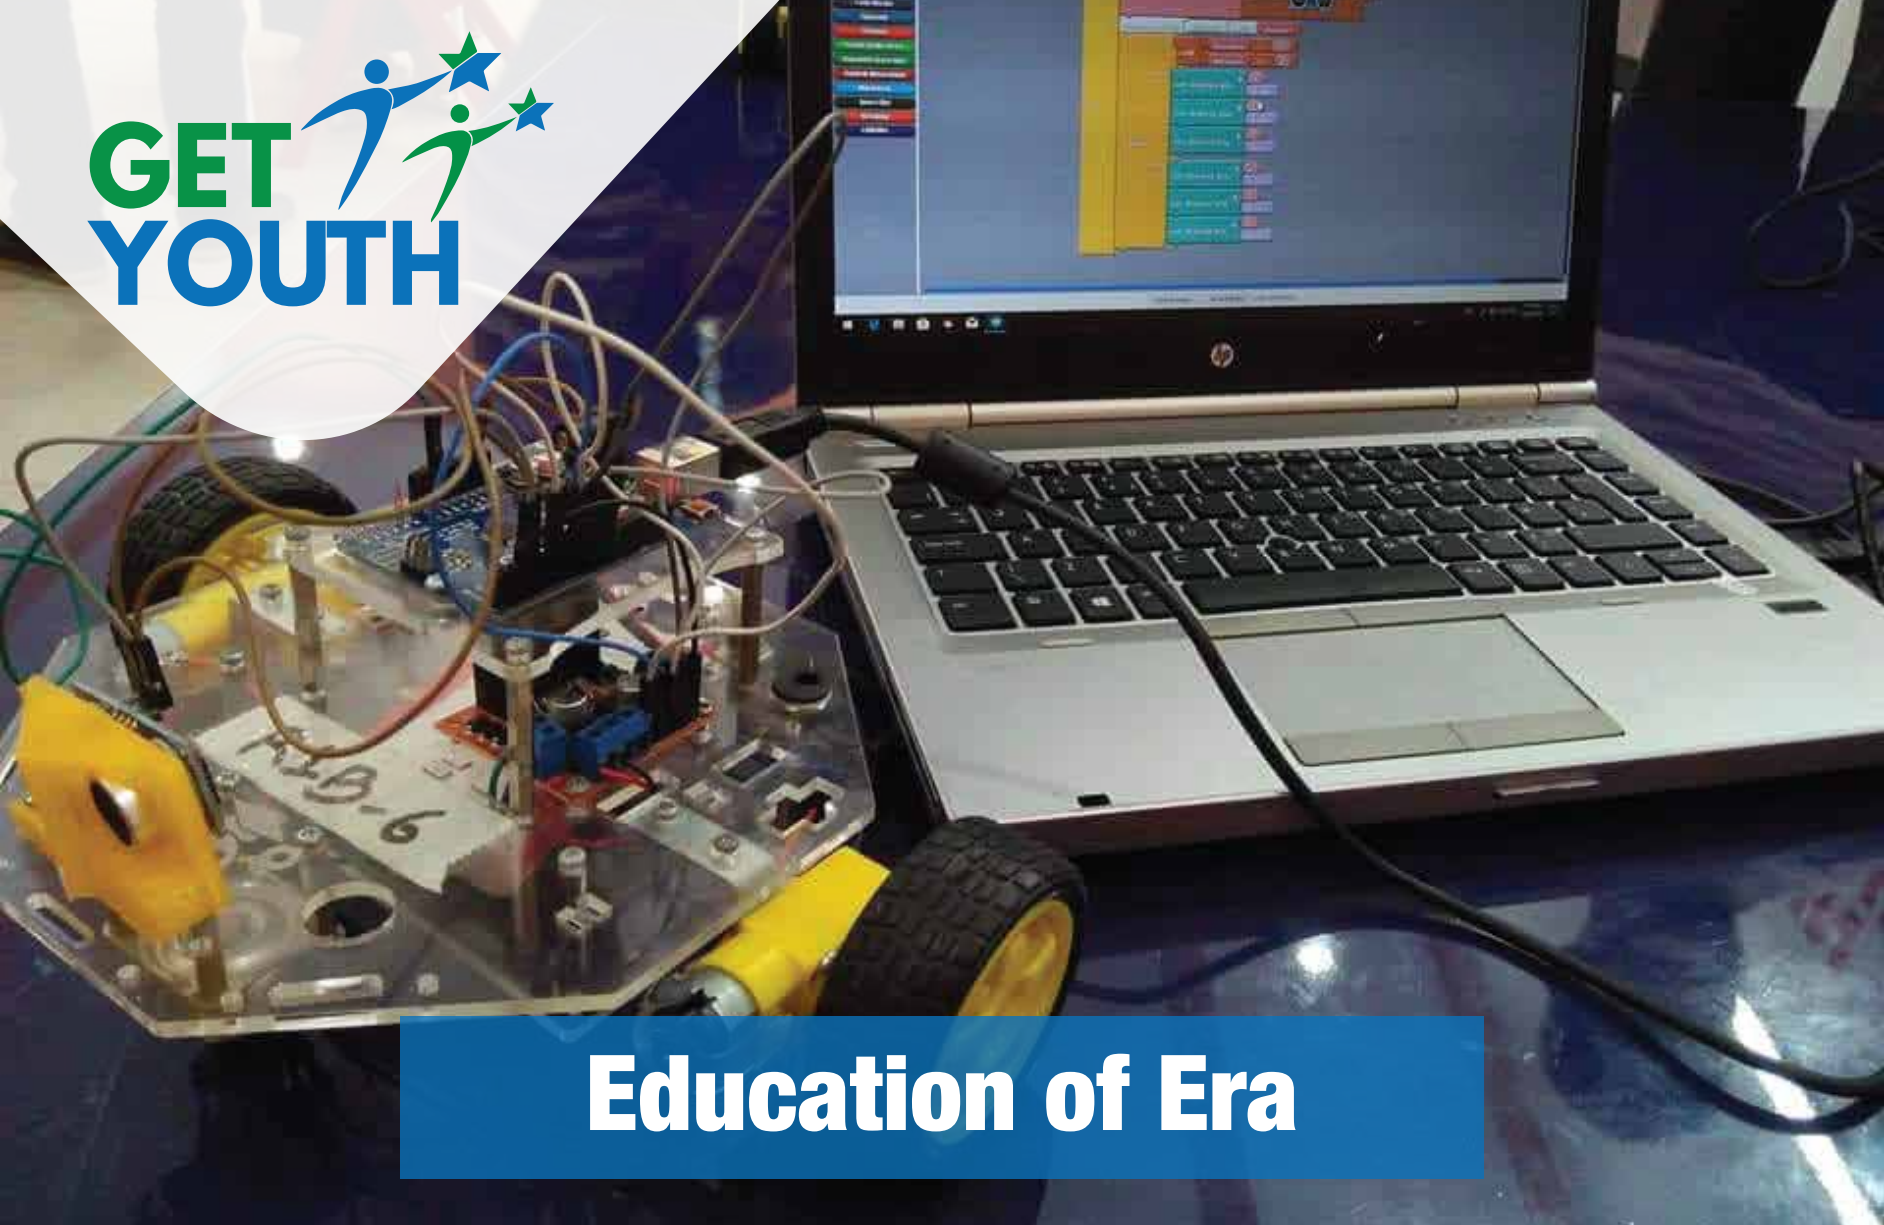

GIRLS EDUCATION

GET YOUTH is working for education of Era and is now more focused on the education of girls as there should be no gender discrimination and everybody has equal right to education. So with the alliance to other organizations GET YOUTH is taking an initiative to work for the girl's education so that they can excel in their lives and can achieve their goals, leading to a bright future.

We have a lot of talent in our rural community but it is not well utilized. Girl is performing a lot in knitting, sewing, embroideries, artwork and much more so GET YOUTH wants to give them technical knowledge as well and to make them self-sufficient so that by doing short courses of technical knowledge they can become proficient enough to feed their families and themselves as well.

Education of Era

IT BASED EDUCATION

GET YOUTH project is consistent with the goals of providing technical education that is also the education of era, for instance coding language, 3D virtual courses, animations, etc. that is equitably accessible to all. The main objective of GET YOUTH is to provide a learning opportunity for school-aged children so that they can learn new technologies in the domain of IT, starting from the basics and thus excel in future.

Boot Camps for Kids

Out-of-school Children

Knowledge and innovation

Education for child labor

Teaching and learning

Robotic classes for kids

(Coding of robots, designing of robots, game development, game development, designing of the solar system)

A steam camp that involves

- Robotics and AI Camp
- Space Tech and Arts in Technology Camp
- Green technology and App Development Camp
- Robo Soccer Camp
- IoT and Home Automation Camp
- Photography and YouTubing Camp
- Aerospace Camp

EDUCATION FOR SLUMS

We believe that education is the most prior factor in the world to exhibit a positive change, and everybody has a right to quality education. Thus, our organisation is also working towards the improvement of the Slum Schools, where children doesn't have an access to the education they deserve because of financial issues. Considering the situation, we aim to provide them quality education for a better tomorrow.

EDUCATION FOR SPECIAL KIDS

GET YOUTH is already working for special kids in the education sector by providing them skilled-based education and now GET YOUTH is now taking an Initiative to help deaf kids to accommodate the problem of deafness by using unique and distinctive expertise in IT. Its core objective is to empower kids with hearing disabilities through innovative speech therapy. It wants to develop a software-based solution to help and support individuals, parents, society, organization, training institutes which are working with deaf kids in Pakistan.
